Marriott Chicago Downtown • August 17-20, 2006 • Chicago, IL

President: John Coleman, MD
Annual Meeting Chair: Dennis H. Kraus, MD
Workshop Chairs: Carol Bradford, MD and Jean Louis LeFebvre, MD

Abstract submissions will be accepted January - March 2006.
Submission deadline: March 31, 2006

In 2006, for the first time, the American Head & Neck Society will combine its Annual Meeting with the Research Workshop on the Biology, Prevention and Treatment of Head & Neck Cancer.

About the Annual Meeting:
• The pre-eminent event each year for head and neck cancer surgeons
• The place to see the best clinical surgical research presented
• Receive updates on the latest surgical techniques
• Interact with colleagues within the specialty

About the Research Workshop:
• The most important international interdisciplinary research conference focused on topics related to head and neck cancer
• Topics include: molecular genetics, tumor cell biology, immunology, gene therapy, organ-sparing surgery, radiology and imaging, radiotherapy, chemotherapy, chemoprevention, quality of life issues

The goals of the combined meeting are:
• To bring together clinical investigators, geneticists, immunologists, and molecular and cellular biologists to share recent advances in head and neck cancer
• To identify needed areas of future research
• To disseminate this information to the larger community of investigators in related fields
