

AHNS Thyroid and Parathyroid Surgery Course for Residents and Fellows

Tuesday, April 30, 2019 * 1:15pm to 5:15pm

JW Marriott, Austin, TX

Course Directors: Joseph Scharpf, MD, Catherine F. Sinclair, MD, & Michael C. Singer, MD

COURSE SUMMARY

This course will update residents and fellows on the newest evidence based data in the management of thyroid and parathyroid disease and emphasize surgical technique that will optimize outcomes.

OBJECTIVES

- To understand the new ATA Guidelines and molecular markers as they apply to extent of surgery for thyroid nodules and thyroid cancer
- Be able to identify the difficult maneuvers in thyroid surgery and techniques to optimize outcomes
- To understand differences in neck dissection for thyroid cancer
- Be able to confidently work-up the patient with an elevated serum calcium
- To understand and use pre and intra-operative adjuncts to perform successful parathyroid surgery
