TOUR SCHEDULE

After seven very successful World Tour Programs in 2008, 2010, 2012, 2016, 2017, 2018 and 2019, the International Federation of Head and Neck Oncologic Societies is again offering a global continuing medical education program this time virtually featuring the most respected leaders in the field of Head & Neck Surgery and Oncology.

This worldwide program will be presented virtually, in four zones around the world. The program will provide state-of-art knowledge and explore the frontiers of Head and Neck cancer diagnosis and treatment through Keynote lectures and tumor boards with intense interactive discussions with global leaders through case presentations. An ample opportunity will be provided to the attendees to ask questions through the Q and A box on their screen. The four Zonal programs are on different topics and will cover the entire spectrum of Head and Neck Surgery and Oncology
